DETAILED ACTION

Claims 1-32 are under consideration in this application.

Claim 33 is held withdrawn from consideration as being drawn to nonelected subject matter 37 CFR 1.142(b).

Election/Restrictions

Applicant's election with traverse of Group I and the species of compound 9 in the reply filed on May 24, 2004 is acknowledged. The traversal is on the ground(s) that there is no hardship on applicants to search the entire subject matter. This is not found persuasive because for the reasons clearly set forth in the previous Office action. Further, applicants have failed to advance any cogent reasons as to why the Groups are not patentably distinct.

It is too burdensome for the examiner to search all of the previously noted searches in their respective, completely divergent, areas for the non-elected subject matter, as well, in the limited time provided to search one invention.

The requirement is still deemed proper and is therefore maintained.

This application has been examined to the extent readable on the elected compounds wherein R is formula (i) or (ii).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 6-9, 11 and 18-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1625

The variables R_5 and X do not appear anywhere in the claimed formulas in claims 1, 6-9 and 11. . Further, the expressions including, includes and at least one are open-ended and allows for other substituents not contemplated by applicants. It is suggested that "at least one" be changed to -- one or more--.

The term includes in claims 18 and 19 is indefinite as it encompasses additional substituents not contemplated by applicants.

The term relative is misspelled in claim 20.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-32 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-10 of U.S. Patent No. 6,093,734. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant compounds and compositions are generically embraced therein.

Conclusion

No claim is allowed.
